HOW THE DIGITAL MAP PROGRAM WORKS

We work with you to set up a free account with Avenza Systems our third party PDF Map App partner. Once your account is set up you log in to the Avenza Site (<https://www.avenzamaps.com/account/products/>), copy and paste this url into your browser address window. <https://www.avenzamaps.com/vendor/422/map-the-xperience/> which is our home page. You can now scroll down to the bottom of the page and create an affiliate link to our main Map the Xperience home page or can search and find specific maps to create links to.

Here is an example of what one of our affiliate partners has done on their website: <https://www.royalgorgeanglers.com/shop/digital-maps/> They link to several digital GPS mobile river maps individually and also linked to the Map the Xperience main store page.

We will provide support and help you through the easy set up process. Your job is to create the section on your website to sell digital GPS mobile maps. Watch this video which walks you through the process.

We provide you all the images you need as requested for specific maps. We also have created you tube videos of every river map that can embedded on your website. <https://youtu.be/optQaLRtLGc>

If you have a **retail store location** we will help you create **QR Codes** for your affiliate links. You can print these codes and have them in your store. Your customers who download and install the **free Avenza PDF Map App** can open the store tab, select from **QR Code Reader** and then scan the code while in the store to purchase, download and install a digital mobile map.

You can create rack cards and flyers to promote your digital map affiliate links, can email them or use them on social media.
